Six months " " " 6
Three months " " " 4
Delivered by carriers, per week, 25 cents
Advertisements inserted at liberal rates.

General State Items.

Ten flasks of quicksilver from the
St. John mine arrived in Vallejo Mon-
day morning.

The owner of the American quick-
silver mine, near Calistoga, is erecting a
ten-stamp mill.

Ralston's stables at Belmont were
burned Friday night. Loss, \$30,000;
horses and carriages saved.

The Calistoga Gold and Silver Min-
ing Company are now erecting a ten-
stamp mill on their mine on Mount
St. Helena.

The Granges of California are send-
ing aid to the sufferers from the inun-
dation of the Mississippi in Louisiana.

G. W. Barth, of Napa, has just
sheared for the second time his pet
Spanish Merino ewe, and gets there-
from the large fleece of 33 pounds.

The Stockton Independent an-
nounces that more improvements of a
permanent nature are now being made
in that section than during any previous
season for several years.

There are five towns in the newly
created San Benito county, viz: Hol-
lister, San Juan, Tres Pinos, Palmdale
and San Benito. Hollister is the
county seat.

It is estimated that California will
this year produce 12,000,000 gallons of
wine, valued at \$3,500,000, and 2,000,-
000 pounds of raisins. Forty thousand
acres are devoted in the State to the
cultivation of the grape vine.

Over ten thousand acres of grain is
growing upon the Gerke farm, Butte
county, promising a yield of at least
thirty bushels to the acre. The vine-
yard never looked better, and Gerke
says he will make at least one hun-
dred thousand gallons of wine this
season.

The prospect of a permanent coal
mine in Livermore valley has so far
become a certainty that the Livermore
Coal Mining Company have sold their
last share of stock. Work is progress-
ing very cleverly at the mine, and the
managers feel highly elated at the
bright prospect.

There were thirty emigrants got off
the western bound train at this place
on Wednesday morning. We inter-
viewed some of these people, and they
say they have heard much of our val-
ley and will look around for a day or
so for a farm, and that they are well
pleased with it so far.—[Livermore En-
terprise.

Look in any direction, you can see
the busy header and header-wagon
working away. Nearly every farmer
with whom we have spoken says that
the yield will be greater this year
than was ever known in the valley
before. Working men are in demand
and not an idle man can be found in
town. Quite a number of threshers
have gone over to the San Joaquin
valley, but will return in time for
their work here.—[Livermore En-
terprise.

Agricultural Items.

J. R. Nickerson, of the Nickerson
orchard, near Lincoln, informs the
Herald that the fruit crop of
all kinds never promised such an
abundant yield as at present.

The first wheat delivery of this
season came into Colusa on Thursday.
This was of the crop of C. S. Thomp-
son & Bros., and was purchased by
William Billings.

The hay crop in Nevada county is
said to be first-rate. The yield is large
and the quality good. The article is
selling in Nevada City, however, for
\$40 and \$45 per ton.

On the Snively Ranch in the Carmel
Valley, Monterey county, may be seen
oats full nine feet high.

Farmers tell the Butte Record that
the north winds so prevalent for the
last ten days will have a tendency to
prevent late-sown grain from matur-
ing.

The potato crop in Bodega looks
well. There is not the least indication
of blight on either the early or late-
sown crop.

Alderman Blodgett, of Marysville,
has raised potatoes on his lot one of
which weighs 1½ pounds. They were
planted March 20th, three months ago,
and are now ready for the market.

In Santa Monica Valley, San Luis
Obispo county, the grain prospects
are good, but potatoes, turnips, beans,
corn, etc., are being rapidly consumed
by grasshoppers.

The first grain of the season came
into San Diego on Wednesday, con-
sisting of two heavy loads of barley
from Guatay Valley. They will begin
to cut grain in the Cajon Valley this
week.

The high hills all round Santa Cruz
are covered with piles of newly-mown
hay. The crop is better than last year,
and of a superior quality.

Oregon Items.

Rice diggings have been found on
Bridge creek, in Josephine county,
Oregon, and considerable excitement
prevails in consequence. A large
number of persons are flocking there.

It is said that there is a colony of
about three hundred Germans, now
on their way from Kelton, who are
destined to settle either in Grand
Ronde or Wallowa valleys. There is
plenty of room in Union county for
industrious farmers.

Work on the new telegraph line be-
tween Roseburg and Yreka is progress-
ing rapidly. Simpkins' Station, a
point 42 miles beyond Roseburg, has
been reached. Twenty-one men and
three teams are employed by the com-
pany, under the superintendency of
Messrs. Richmond and Crouch. The
line is being built at the rate of two
miles per day.

Pacific Coast Items.

The saloon keepers of Dixon propose
closing on Sunday.
There was a heavy shower of rain at
Mission San Jose last Sunday night.
Several cases of small-pox have ap-
peared at Eureka, Humboldt county.
The house of Joseph Bean was de-
stroyed by fire at Eureka, on the 16th
instant.

Ten flasks of quicksilver from the St.
John mine arrived in Vallejo Monday
morning.

The telegraph office at Maine Prair-
ie, Solano county, will be opened in a
few days.

Harvesting has commenced in earn-
est at Dixon, Solano county. Labor-
ers receive \$2 per day.

The Independent Dispatch, Mrs. Mov-
Belle Lynch's paper, has been moved
from Mendocino City to Ukiah.

The Napa Reporter thinks that a
fruit-drying establishment would be a
good thing for Napa Valley.

D. O. Mills was commissioned,
Tuesday, Regent of the State Univer-
sity, by Samuel Merritt, resigned.

The second crop of strawberries in
Santa Clara county is coming on
slowly, and it is believed that the
yield will be as light as the other was
heavy.

Contractor Murphy expects to finish
his work on the dry dock, at Mare
Island, by the 1st of September. Six
hundred cubic yards of concrete have
been laid.

The Stockton Eureka Steam-engine
Fire Company challenges any steam-
engine fire company in the State to
throw for honor or coin on the Fourth
of July.

Two Chinamen were partially bur-
ied by a bank falling on them while
working in Mare Island Navy Yard,
Tuesday morning. One of them was
severely injured.

Chico has been patrolled the last
few nights, in consequence of the re-
port getting abroad that there was a
plot on foot to burn the town at a
favorable opportunity.

The Marysville Appeal protests
against the promiscuous posting of
bills about that city, and calls for the
enforcement of the law as contained
in the Codes in this regard.

A young man named Joseph Knapp,
about nineteen years of age, was
drowned in the Feather river, at Oro-
ville, Tuesday, while bathing in com-
pany with friends, who never suspect-
ed his danger until he had sunk to
rise no more.

The case of the People vs. Harlow
Hill, of Pope Valley, on trial in the
Napa District Court on a charge of
Bosch, the sad confirmation of his
guilt, school-boy, burned some weeks
since, was concluded Tuesday with an
acquittal of the prisoner.

The Utica Herald says that a letter,
received in that city on Friday morn-
ing, brings to the family of Judge
Doolittle the sad confirmation of his
loss at sea, at about 3:30 o'clock on the
evening of May 21st. Dr. Kitchin
writes that they had thus far had a
pleasant trip, the Judge enjoying him-
self, and meeting, as pleasant com-
panions, General Schenck, Dr. Dawson,
Rev. Dr. Morgan, and the Rev. Bro. Brown
of Brown Brothers, bankers. On the
afternoon of the second day the sea
was rough. They went to the state-
room directly after tea, and passed
some time in conversation. Becom-
ing somewhat sea-sick, the Judge pro-
posed to walk a little on deck and
they returned. In passing a leading up
Dr. Kitchin, following in a few min-
utes. Arriving on deck and not see-
ing the Judge, the Doctor immedi-
ately went to the stern of the vessel.
The passengers sitting in the rear of
the wheel-house saw him in the water
for an instant. The Doctor adds that
he must have gone directly to the side
of the vessel, and, being sick and lean-
ing over, lost his balance and fell. He
further states that Rev. Dr. Morgan,
on behalf of the passengers and him-
self, communicated through Dr.
Kitchin to the family of Judge Dool-
ittle their most profound sympathy
in their sudden bereavement.

A very good story is circulated in
Washington at the expense of Mr.
Morrill of Maine. It seems that the
Senator was out for a walk last Sun-
day evening. In passing a leading
colored church he was so pleased with
the singing that he went in. He had
been seated but a few minutes when a
colored dignitary approached him, and
said in substance that the church was
for colored people, and they preferred
to be left undisturbed by white people
during their services. Mr. Morrill
immediately retired. A few days be-
fore he had been earnestly working
for the passage of the Civil Rights bill.
—[Springfield Republican.

POETRY.
Though preachers may preach and teachers
teach
Of the evil effects of drink,
'Tis music sweet to a man of wit
To hear the glasses clink.
Both Webster and Clay, who in their day
The nation's affairs did guide,
At 11 A. M. each day were seen
With bottles by their side.
Say what you will—talk with skill—
'Tis true beyond a doubt,
That sparkling wine is a gift divine
Life would be dear without it.

HOT LUNCH
served from 11 to 12 A. M., and in the evening
from 5 to 10 o'clock, at the

LOCAL BREVITIES.

G. W. Morgan has money to loan. The Guards were out on street drill last night.

An election for School Trustees will be held in San Pedro School District to-day.

The Orizaba sails for San Francisco to-day. Passengers will take the 4 P. M. train.

There are telegrams at the Telegraph Office for Charles Young and Mr. Bowman.

The Constantine will sail for San Francisco and way ports on Tuesday, June 30th.

We are sorry to state that our old and respected citizen, John Goller, is lying very ill.

The foundation for a billiard saloon and lodging house was laid at San Fernando Thursday.

In the U. S. Land Office the case of Cayetano Duarte vs. Civility Greenwade is still on trial.

Work on the lighthouse at Point San Pedro is progressing rapidly, and will soon be completed.

All assessment blanks should be filled out and given to the Assessor before the first Monday of July.

Adolph Portugal is selling dress goods at surprisingly low figures. Call on him and see if this is not the case.

The Jewish Sunday School will have a picnic next week at the Arroyo Seco. The children are preparing for a grand time.

The poll-tax of two dollars is now due and payable before the first Monday in July. From that time until January 1, 1915, it will be three dollars.

Mr. T. D. Maloney's writing school, morning and evening, will open at Lawlor's Institute next Monday. We understand that a large class has been formed.

To-morrow morning's HERALD will contain another Lay Sermon for Sunday reading. These papers are not orthodox, but they are sensible and are penned by a man who thinks for himself.

Constable S. H. Bryant was tried in the County Court yesterday, on a charge of assault with intent to kill, as a sequence to the difficulty which he had with Schmidt some time since. Mr. Bryant was promptly acquitted of the charge.

The following is the list of passengers per steamer Constantine, which sailed from San Francisco June 25th, for Wilmington: Mrs. Deest, N. Hart, Mr. Goller, J. E. Bacon, C. Ducommun, J. H. McGregor, E. Cohen, T. Hour, J. Garner and wife.

Tuttle & Lee, who have rented the large and well-furnished photograph gallery of Mr. V. Wolfenstein, are turning out some of the best photographs to be found in the country.

Their work is finished in the highest style of the art, and warranted to give satisfaction to every reasonable customer. All work promptly done and terms reasonable.

Jesus Via Señor yesterday made complaint before Justice Gray against his father-in-law, Esteban Alvarado, for threatening to take the life of complainant and his family, and making demonstrations to draw a deadly weapon. At the time for trial Via Señor failed to put in his appearance to prosecute, and the case was dismissed. It was only a family row, after all, and best settled out of the courts.

Mr. Madigan has kindly furnished us with some statistics relative to our public and private schools, and our juvenile population, which will be of interest to our readers: Number of children in Los Angeles of school age, between five and seven, 2,473; number white children, 2,423; number negro or colored children, 39; number boys, 1,111; number in public schools, 1,305; number going to private schools, 1,000; number not in any school, 1,128; number under five years of age, 712.

La Esperanza, at No. 108 Main street, is one of the largest and best appointed stores in Southern California. A full line of groceries, imported direct from the East and Europe, together with a complete stock of provisions, is kept constantly on hand and sold at bottom prices. Country produce bought, and the highest price allowed. This house is too well known to require any further commendation from us; we can only advise our friends to visit the store and see for themselves what excellent inducements are offered to customers by way of fine goods and low prices.

The "Thirty-eights" will convene our city with a torch-light procession this evening at half-past 8 o'clock. The boys have their new uniforms now ready, and with a full turnout of the members, supported in their line of march by the engine, hose-cart and hook and ladder truck, they will make a fine display. The company will meet and form at the engine house at the time stated, and take up their line of march as follows: Up Spring street to Main, up Main to the Pico House, counter-march down Main to Fourth, along Fourth to First, up First to First, along First to Main, up Main to junction with Spring, and thence to headquarters.

About 1 o'clock yesterday morning Officer Harris arrested a fellow who was making off with a suspicious looking bundle. The culprit proved to be the somewhat notorious Harris (no relative of the officer, we are glad to say) who confessed that he had stolen the package from the U. S. Hotel. The articles in the package consisted of several pieces of ladies' wear and a card attached showed that they belonged to Mrs. Donelson, of the Eight-ninth House. The bundle was left at the hotel to be forwarded to its destination yesterday, and had been pilfered by the sneak-thief so adroitly as to escape the notice of the hotel clerk.

There will be some fine races at the Agricultural Company's Park on the Fourth, under the management of S. Mahon, lessee. The day's programme includes, first, a trotting race, for horses that have never beaten three minutes; mile heats, best three in five, to harness, for a purse of one hundred dollars—second horse to save entrance money. Second, a hurdle race, for horses three feet high, not including the brush; one mile; first hurdle to be placed forty yards from the string; for a purse of fifty dollars. Third, a sweepstake race; dash of six hundred yards; free for all; catch weights; entrance twenty dollars, winner to take all the money. The entries must be made to-day, with Major Truman at the Star office.

That Vexed Question.

EDITOR HERALD: We were not a little surprised to see the article in the Star of yesterday morning's issue, knowing as we do the clarity of the writer, which indeed, has often manifested itself by generous contributions whenever called upon. There is some mistake, we opine, in the intention of the author, when the argument is used that there are other sufferers, "who, perhaps, could show an equal claim upon our sympathies with the Louisianaans." If there are any such in Los Angeles, let them at once be looked to; let a committee on home charity be at once appointed among our noble citizens and the starving sufferers of Los Angeles be at once relieved. To delay one moment would be a burning shame and the fair fame outraged which Los Angeles has so long borne for clarity. We agree, however, upon the subject of the Fourth of July, when the Star demands a celebration. This we cannot do without; the day, in one word, is the Fourth of July, and is bound to be kept; whether by the dispensing of alms to our suffering, starving brothers, or by the booming of guns, other manifestations—it still must inevitably be celebrated. And if the first mentioned manner of enjoyment be preferred to the second, then the little ones, whose supplies of fire-crackers upon the Fourth are cut short, may be told that it is done because there are a great many people starving to death, among whom are poor little boys and girls. Let them ask their young hearts if they would not rather save the life of a fellow-creature than to commemorate the day by shooting a fire-cracker. "Oh, yes!" will be the answer, their ten-cent piece will be given to the Louisiana Fund, and the question of charity will never be forgotten. This, indeed, will be a noble way to stamp the glories of the day upon the hearts of our children, and when the day is past the recollections of the day to their young souls will be as bright as the day itself, for the sun of charity never sets.

Let us then have a Fourth of July that can never be forgotten; let the money that is to be expended be devoted to that purpose, and let ten times that amount be raised and devoted to the saving of life; let our committee on the Louisiana Fund work, and let our ladies, Jewish, Catholic and Protestant, co-operate in the good work, and on the Fourth of July have such a dinner in aid of the Louisiana Fund as will gladden the participants in Los Angeles, and save from death the starving poor of Louisiana; let our Calhounians think of this; let our talented orator be stirred by more than usual patriotism; let the words of our poet be gloried with more than his wonted power; let the Grand Marshal, let all unite to make the day the greatest Los Angeles has ever seen, and let the good news be echoed back from the glad tidings, and Los Angeles will have done her best in charity and patriotism.

Compton School.

The closing exercises of the Compton school, under the supervision of Mr. R. B. Warren and Mrs. Ella L. Finley, took place yesterday.

We regret that we were not able to attend the exhibition, as we hear from a party who was there that it was very fine. We have secured a programme of the exercises, however, and present it herewith, simply stating, as we have said, that it was excellent and the principles it reflected great credit upon teachers and scholars. The programme was as follows:

Singing by the school, "Ring the bell"; Emma Carey, "Learning to Pray"; Ada Rice, "If we knew"; Jessie Clark, "The Old and the Young"; Daniel Hathorn, "The Indian Hunter"; "The Unfortunate Scholar"; a dialogue by Misses Wright, Minnie Coltrin, Sarah Rogers and Ada Jenkins; Rosa Stockwell, "Mary's Lamb"; Hugo Grand, "Grandma Allus Does"; Willie Miller, "Song of Marion's Men"; Lane McComas, "The Smack in School"; Singing, "Beautiful Silver Sea"; Nettie Lawton, "Winter Bouquets"; Ellen Stockwell, "A Girl's Address"; Willie Higgins, "Somebody's Darling"; Guy Burlingame, "The Tempest"; "The Dream"; a dialogue by Masters Lane, McComas and Leo Rogers. Singing by Miss Georgia Higgins, "The Morning Call"; a dialogue by Misses Estrella Rea, Jartha Rea, Lucy Jenkins and Annie Loughrey; Chas. Miller, "Battle of Waterloo"; Edith Gaine, "The Dream"; "The Lion"; Mary Camp, "Mattie's Troubles"; Lydia Camp, "Cherries are Ripe"; a dialogue by Eugene Burlingame, Anastasia Avila, Mary Wilson and Candace Warren; singing, "The Fairies"; Frank Stockwell, "Harry and the Guide-post"; James H. Wilson, "May as you like"; Harry Murphy, "Evening Hymn"; Margaret Campbell, "Brothers and Sisters"; "The Spoiled Child"; a dialogue by Misses Maggie Hogan, Lottie Wright, Cassie Higgins and Ada Jenkins; Jennie Eames, "Confession"; Judith Rogers, "Matters Matrimonial"; Minnie Coltrin, "What is all, when all is done"; Annie Loughrey, "Never Satisfied"; Annie Smith, "The Dying Soldier"; singing, "Golden Apples"; "The Widow Muggins—Her Opinion of Cooks, Suitors and Husbands"; "Mrs. Muggins"; Miss Lucy Jenkins, "Assassin Hannah Jane"; Miss Estrella Rea; "Betsy"; Miss Jantha Rea; "Peggy Ann"; Miss Annie Loughrey; singing by the school, "Reception Day."

The examinations in Prof. Lawlor's Institute were concluded yesterday, and the scholars dismissed for vacation. Classes were examined in physical geography, English grammar, physiology, book-keeping, Latin and algebra. The examinations were well sustained throughout, and especially in mathematics, in which the scholars evinced a very remarkable proficiency. Rapidity of work was a special feature. Examples with six numbers or more given to find their least common multiple, were done in a quarter of a minute by some of the pupils. The same examples, as usually worked, would require at least fifteen minutes. A like rapidity of calculation, with universal correctness, was shown in various other forms of computing numbers. The class in book-keeping gave a very creditable showing of their work during the term, by proving a good elementary knowledge of double entry book-keeping and much improvement in penmanship. The study is pursued by girls and boys alike with practical benefit to both.

The classes in algebra and Latin also did fine. Prof. Lawlor is a thorough, careful teacher, as the work of his scholars yesterday abundantly demonstrated.

Professor Denton.

Prof. Denton the eminent writer and lecturer on geology, who was recently arrested and thrown into jail in Sacramento for refusing to pay a license tax for speaking, is now in Santa Barbara delivering a course of lectures there. The people are highly pleased with his efforts, as, witness the following from the Santa Barbara Press of the 20th inst., which comes to us with a note of personal endorsement from the editor. We expect and hope that the Professor will pay our city a visit before leaving the Coast.

The Press says: Professor Denton was greeted at Cook's Hall last evening by a full house—so full that extra seats had to be extemporized for persons standing in the room. The lecturer, we think, fulfilled the highest expectations of those who only knew him by reputation, and gratified his many friends here who have had the pleasure of listening to him before.

In this opening lecture the Professor must have captivated all by his extensive knowledge of geology and the pleasing style in which he handles the subject. He stands amid his charts and rocks, magician-like, wand in hand, and without note or book, pours out the facts, as recorded "by the infallible hand of God," concerning the growth of our planet; and while charming the imagination with his eloquent descriptions, convinces the reason with his well-drawn conclusions. He speaks not alone of the geological evidences to be found elsewhere on the globe, of the various stages through which this planet passed before reaching its present condition, he gives the testimony of the sands, the shells, the springs, the rocks, the hills, and the mountains in this immediate vicinity. He shows how these were formed; the practical value of geology to the theologian, the farmer, the work of miner, and in general, and he does it all in such a way—ever himself standing behind his subject—that the delight of receiving knowledge at his hands, is sufficient compensation for sitting for an hour or two under his instructions. The great success of the lecture, and the success of the whole course, The second will be delivered this evening.

Orator of the Day.

The following correspondence between the Literary Committee of the Fourth of July Celebration and Mr. R. J. Hudson will explain itself. We congratulate the committee on the fortunate selection they have made, and feel assured that an address worthy of the occasion will be delivered. The correspondence is as follows:

R. J. HUDSON, Esq.—Dear Sir: The Literary Committee have selected you to deliver the oration at the forthcoming county celebration of the ninety-eighth anniversary of our National Independence.

The committee take pleasure in extending to you the invitation, and earnestly urge you to accept the same. Very respectfully,

J. S. THOMPSON, B. L. PEEL, H. S. ORME, OTTO VON FLORENZ, OTTO VON FLORENZ, W. D. GOULD, Los Angeles, June 25, 1914.

To J. S. THOMPSON, B. L. PEEL, H. S. ORME, OTTO VON FLORENZ and W. D. GOULD:

Gentlemen:—Your invitation to deliver the oration at the coming anniversary is accepted. My best endeavors will be exerted to make the celebration creditable alike to the citizens of Los Angeles and the principles it is designed to commemorate.

Very truly, RODNEY HUDSON, Los Angeles, June 25, 1914.

A Move in the Right Direction.

We are pleased to observe that our City Fathers have at last made the much-needed appointment of City Health Officer. Many almost intolerable nuisances have been endured in various parts of the city, and have not been removed, simply because there has been no special sanitary officer to report them. Our city is becoming a place of too much importance to longer neglect that particular attention required. Los Angeles is, perhaps, visited by more strangers in the course of the year than any other city in California, San Francisco excepted. These visitors are persons of superior refinement and intelligence, who have lived in cities and towns of the most careful sanitary regulations, and detect at once the sad neglect in this respect of many portions of the city. Freely have they spoken of this in our hearing as a most serious drawback to the place. The Board of Health, in its session last Thursday wisely considered these facts and appointed a competent and worthy physician to give the careful attention so much needed. Dr. J. H. McKee, the appointee, has resided amongst us some four months, is thoroughly identified with our city, and from what we know of the man we can safely say he will go fearlessly on and do his duty.

A favorable report comes from Santa Ana regarding the crop prospects of that section of the county. It is estimated that there is five times as much corn and other cereals grown as in any year heretofore. The barley crop is good, and is being harvested at present. The water in the Santa Ana ditch is as far down as the ditch is expected at Santa Ana in a few days, which will help to enrich things generally. Captain Debeney has made an examination of the harbor at Newport Landing, and is well pleased with it. He says small steamers can cross the bar easily. This will be a great convenience to the people of that part of the county, as it is only about eight miles from Santa Ana, with a very good road between.

Win. Pridham, W. H. Workman and Charles Miles, a committee on Los Angeles Sufferers' Fund, reported last night \$347.50, almost every one in the city giving something. We counted over one hundred and fifty names on the list with sums ranging from \$1 to \$10—creditable, indeed, to our citizens, and the more so that the contributions were so general. But a few hours time was spent in raising this fund—simply an example of California philanthropy, and that, too, right upon the heels of the Fourth of July Financial Committee. This committee deserves the more credit from the fact that we saw their names among the subscribers, besides giving their time to this noble work.

Showers of rain, accompanied by thunder and lightning, fell at 2 o'clock Monday morning in San Francisco, cooling the air and laying the dust finely.

The Express says: Wednesday night, one Juan Capistrano, a Mexican, made a murderous assault on his wife with a shot-gun, at the Mission San Gabriel. He clubbed her over the head with the weapon, sinking the trigger into her skull, and twisted one of her arms out of place and broke three fingers of one hand. The woman is in a dangerous condition, and will probably die. No effort was made to arrest him. He came in Thursday on the Spadra train and went out to San Fernando. On the train, he attempted to draw a knife on Conductor House, but Mr. McDonald of the Railroad Company, saw the move, and seized him.

It is reported that there was an interesting row among the natives at Spadra on St. John's night. They all got into a series of fights. One fellow was badly beaten over the head with a billiard cue, and others were more or less injured.

Mr. W. H. Mace is building a fine residence at Florence. When he has the cage in readiness we suppose the bird will follow. That is logic.

DIED.

STANARD—In this city, June 25th, the infant child of Mr. and Mrs. Ben. A. Stanard.

Special Notices.

As the tide of immigration is steadily setting in, and the first thing eastern people do is to throw away their New York Hats and buy a new one of Desmond. They say there is no comparison between the two.

Agency Liverpool and London and Globe Insurance Company. Assets, \$21,000,000. Agency State Investment Insurance Company. Fire and Marine. Assets, \$330,000, at Brodick's Book Store, near the Postoffice.

PIPIFAX.

This remarkable curative herbal preparation is entirely unlike and greatly superior to any other recuperant ever discovered.

It strengthens the living vital nervous principle, and gives energy to the muscles, nerves, filaments, membranes, and all tissues of the internal organs.

PIPIFAX—Keeps the skin in a supple condition; the cuticle pliant; the pores open; and brings the blood to the surface; thereby enabling the system to counteract these baneful atmospheric influences.

PIPIFAX—Passes through the blood, carries off by perspiration and other excretions the effete and injurious materials of the body. It is soothing, alterative and defecative. Used methodically and rationally, aided by suitable diet, it produces most important changes in the system, contributing to the reconstruction of tissues, and removes vitiated matter which has become not only useless but injurious. No other article has ever been introduced which combines in such an extraordinary degree the principles of an efficient antibilious agent and tonic. Try it and be convinced.

PRINTING.

THE HERALD

JOB

PRINTING OFFICE

SPRING STREET,

OPPOSITE THE COURT HOUSE,

LOS ANGELES.

THE attention of the business community of Los Angeles and vicinity is invited to the facilities of this office for executing every description of

BOOK AND JOB PRINTING

Fully alive to the inferior manner in which the day of service after the service on the part of the proprietors of this establishment have determined to institute a new order of things in his business.

A NEW POWER PRESS

(the first to reach this far south on the Pacific Coast), capable of printing a

LARGE SHEET POSTER,

either plain or in colors, is already running,

and driven by

STEAM POWER,

which is also attached to their new and

ELEGANT

Job Presses.

The facilities for turning out work will thus be equal to most and superior to many office in San Francisco.

A SPLENDID ASSORTMENT

OF

NEW TYPE

AND MATERIAL,

of the most modern designs and approved

Eastern manufacture, has been selected. And

it is intended to equip and furnish this de-

partment with

THE BEST PRESSES,

THE FINEST TYPE,

AND THE

MOST MODERN APPLIANCES,

AS TO MAKE THE

HERALD JOB OFFICE

THE MOST COMPLETE

IN SOUTHERN CALIFORNIA.

They have engaged as foreman of this de-

partment, one of the most experienced Book

and Job Printers in the country; and the

presses will be superintended by a Skilled

Pressman from one of the largest offices in

New England.

PAMPHLETS

Will be printed from New Type, and the

greatest care exercised to insure accuracy in

freedom from typographical errors.

POSTERS & HANDBILLS

Plain or in colors, executed at very short no-

tice and displayed in the best manner.
